

Agile Team Facilitator

Practical Facilitation Skills and Competencies for Successful Team Collaboration

The Agile Team Facilitator (ICP-ATF) course is an engaging and interactive workshop designed to equip participants with the essential skills and knowledge needed to effectively facilitate Agile teams. This ICAgile certified course focuses on the role and responsibilities of an Agile Team Facilitator, emphasizing practical techniques for fostering collaboration, enabling self-organization, and driving high-performance team dynamics.

Participants will explore a variety of facilitation tools and techniques applicable in Agile settings, including how to design and conduct effective meetings, increase collaboration, and navigate the complexities of team dynamics. The course highlights the importance of facilitation as a foundational skill for Agile coaches, Scrum Masters, and team leaders committed to advancing agility and high-performing teams.

TOPICS

- Understand the role and responsibilities of an Agile Team Facilitator.
- Develop skills in designing and facilitating effective team sessions.
- Learn to apply to use facilitation principles and use facilitation frameworks.
- Master techniques to support and enable self-organizing teams.
- Gain insights into team dynamics and group behaviors.
- Acquire tools to facilitate collaborative meetings efficiently and effectively.

CERTIFICATION

Upon completion, participants will receive the ICP-ATF certification, recognized globally as a testament to the holder's expertise as an Agile Team Facilitator.
